03-historia-1-checklist.png

1. GitHub Issues e Projects

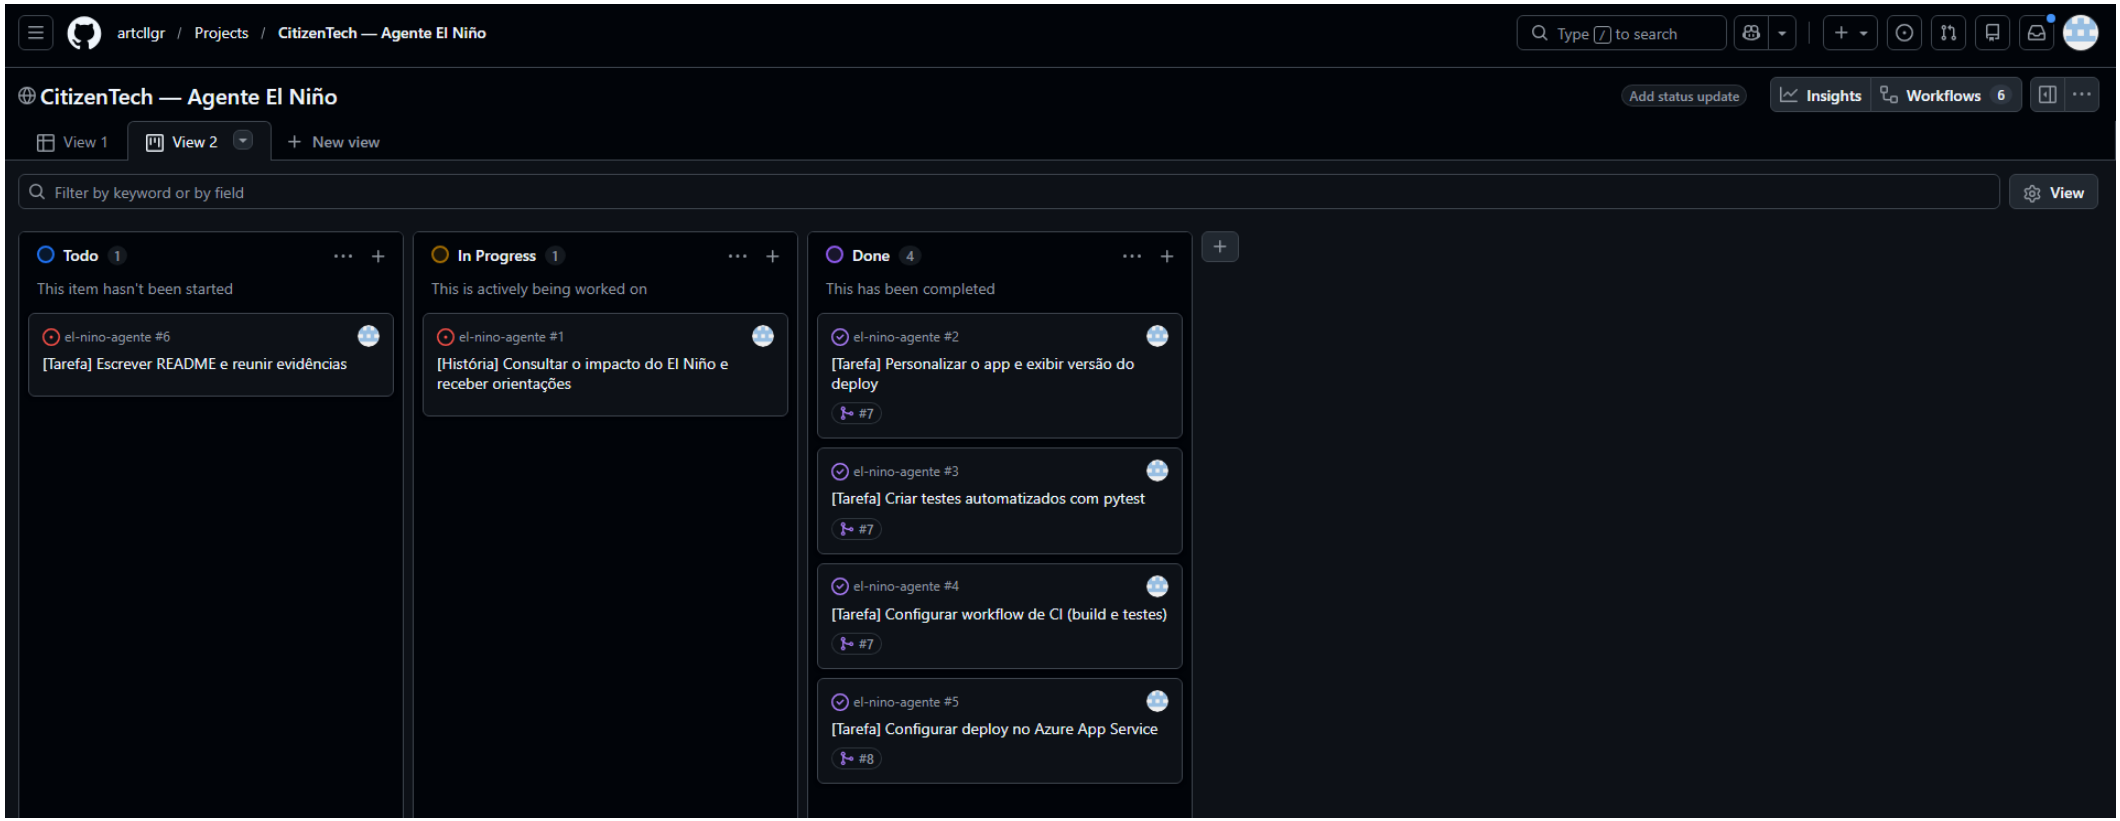

Project (tabela): responsável, status e PR ligado a cada item.

04-project-tabela.png

1. GitHub Issues e Projects

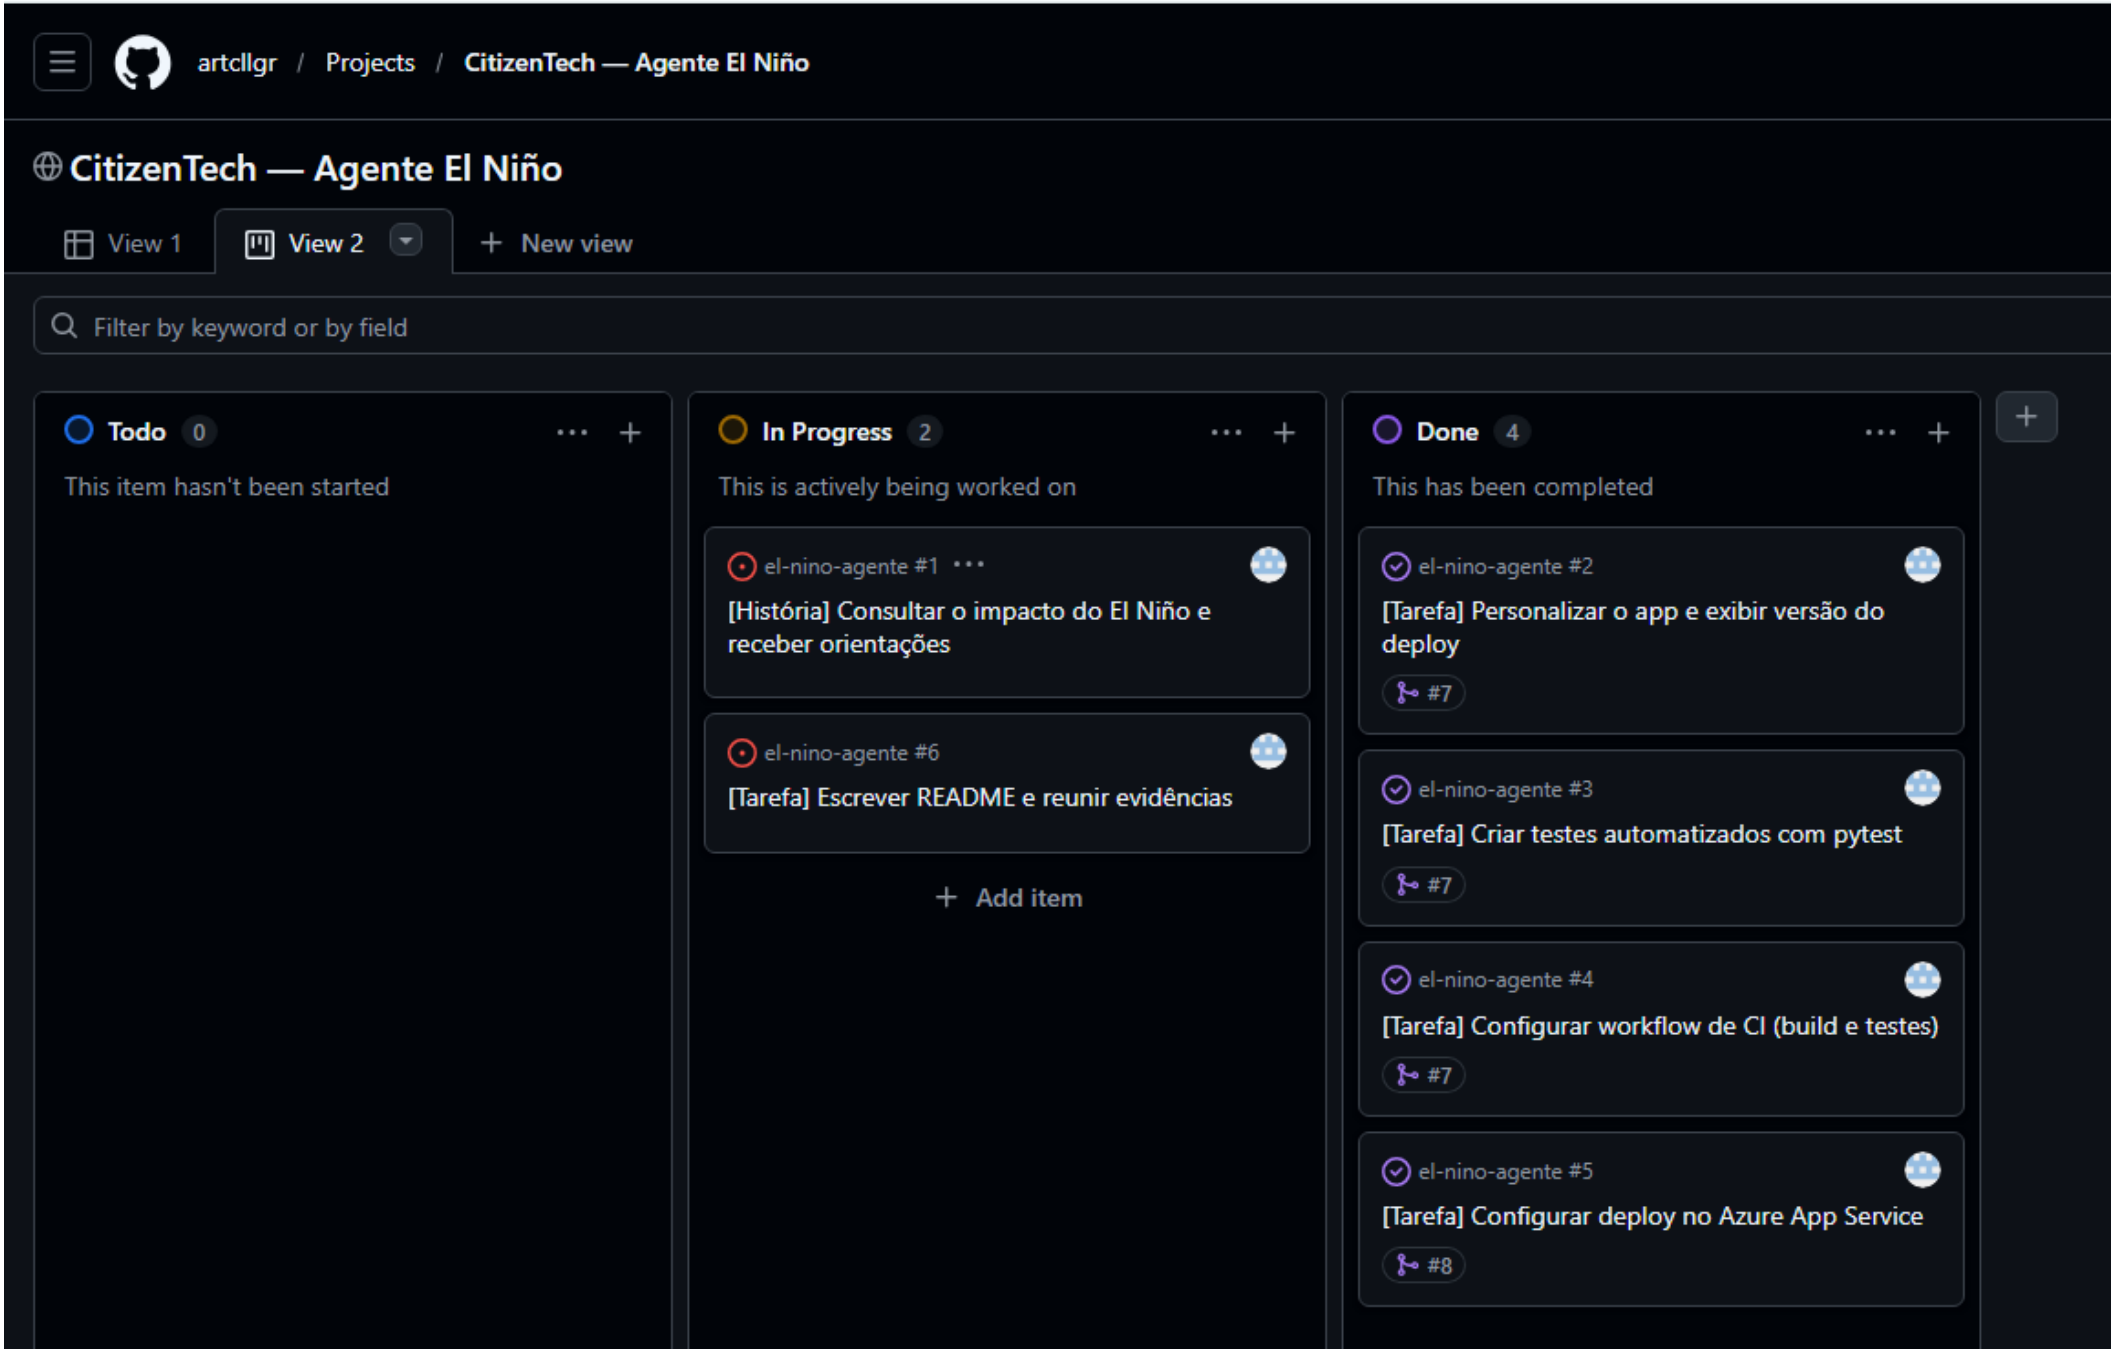

Project (quadro): #6 em Todo, #1 em In Progress, #2 a #5 em Done.

04b-project-board.png

1. GitHub Issues e Projects

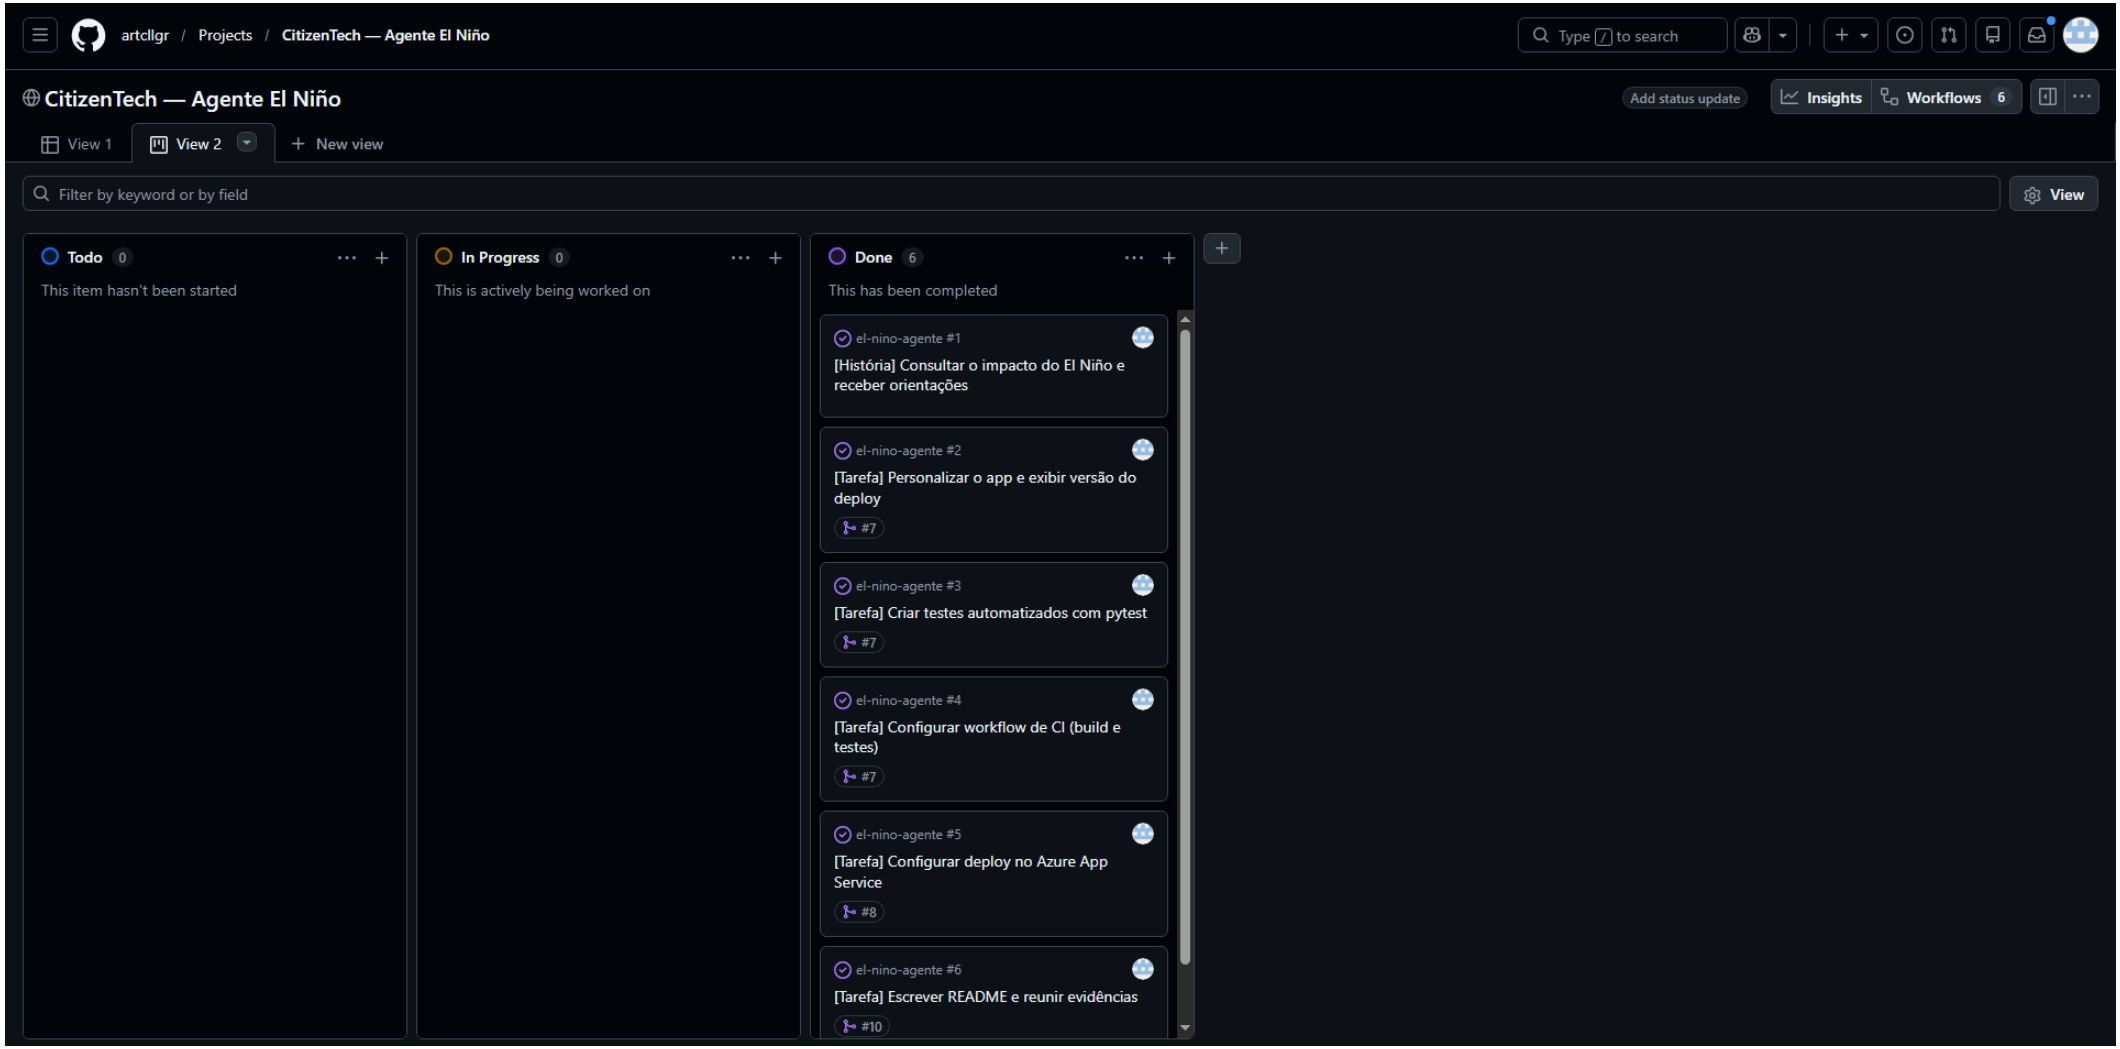

Evolução: #6 movida de Todo para In Progress durante a escrita do README.

15-project-6-in-progress.png

1. GitHub Issues e Projects

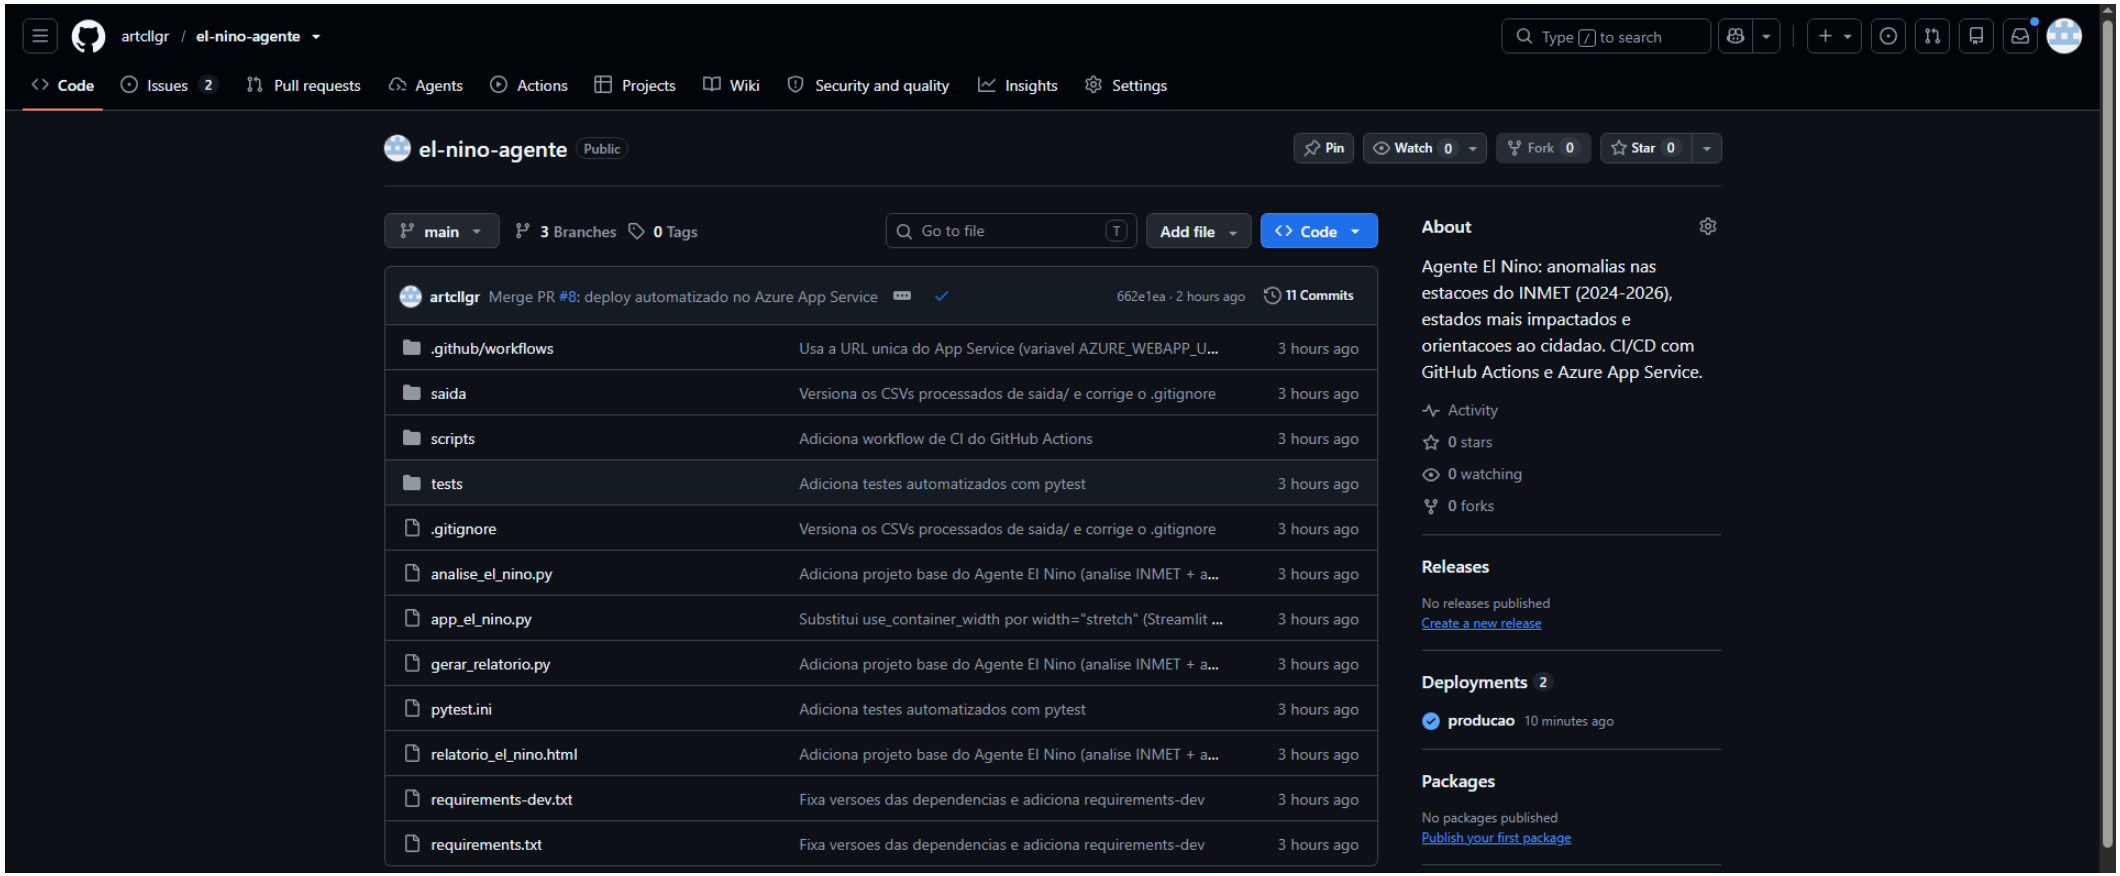

Final: todas as issues em Done.

16-project-tudo-done.png

2. Repositório, branches, commits e Pull Requests

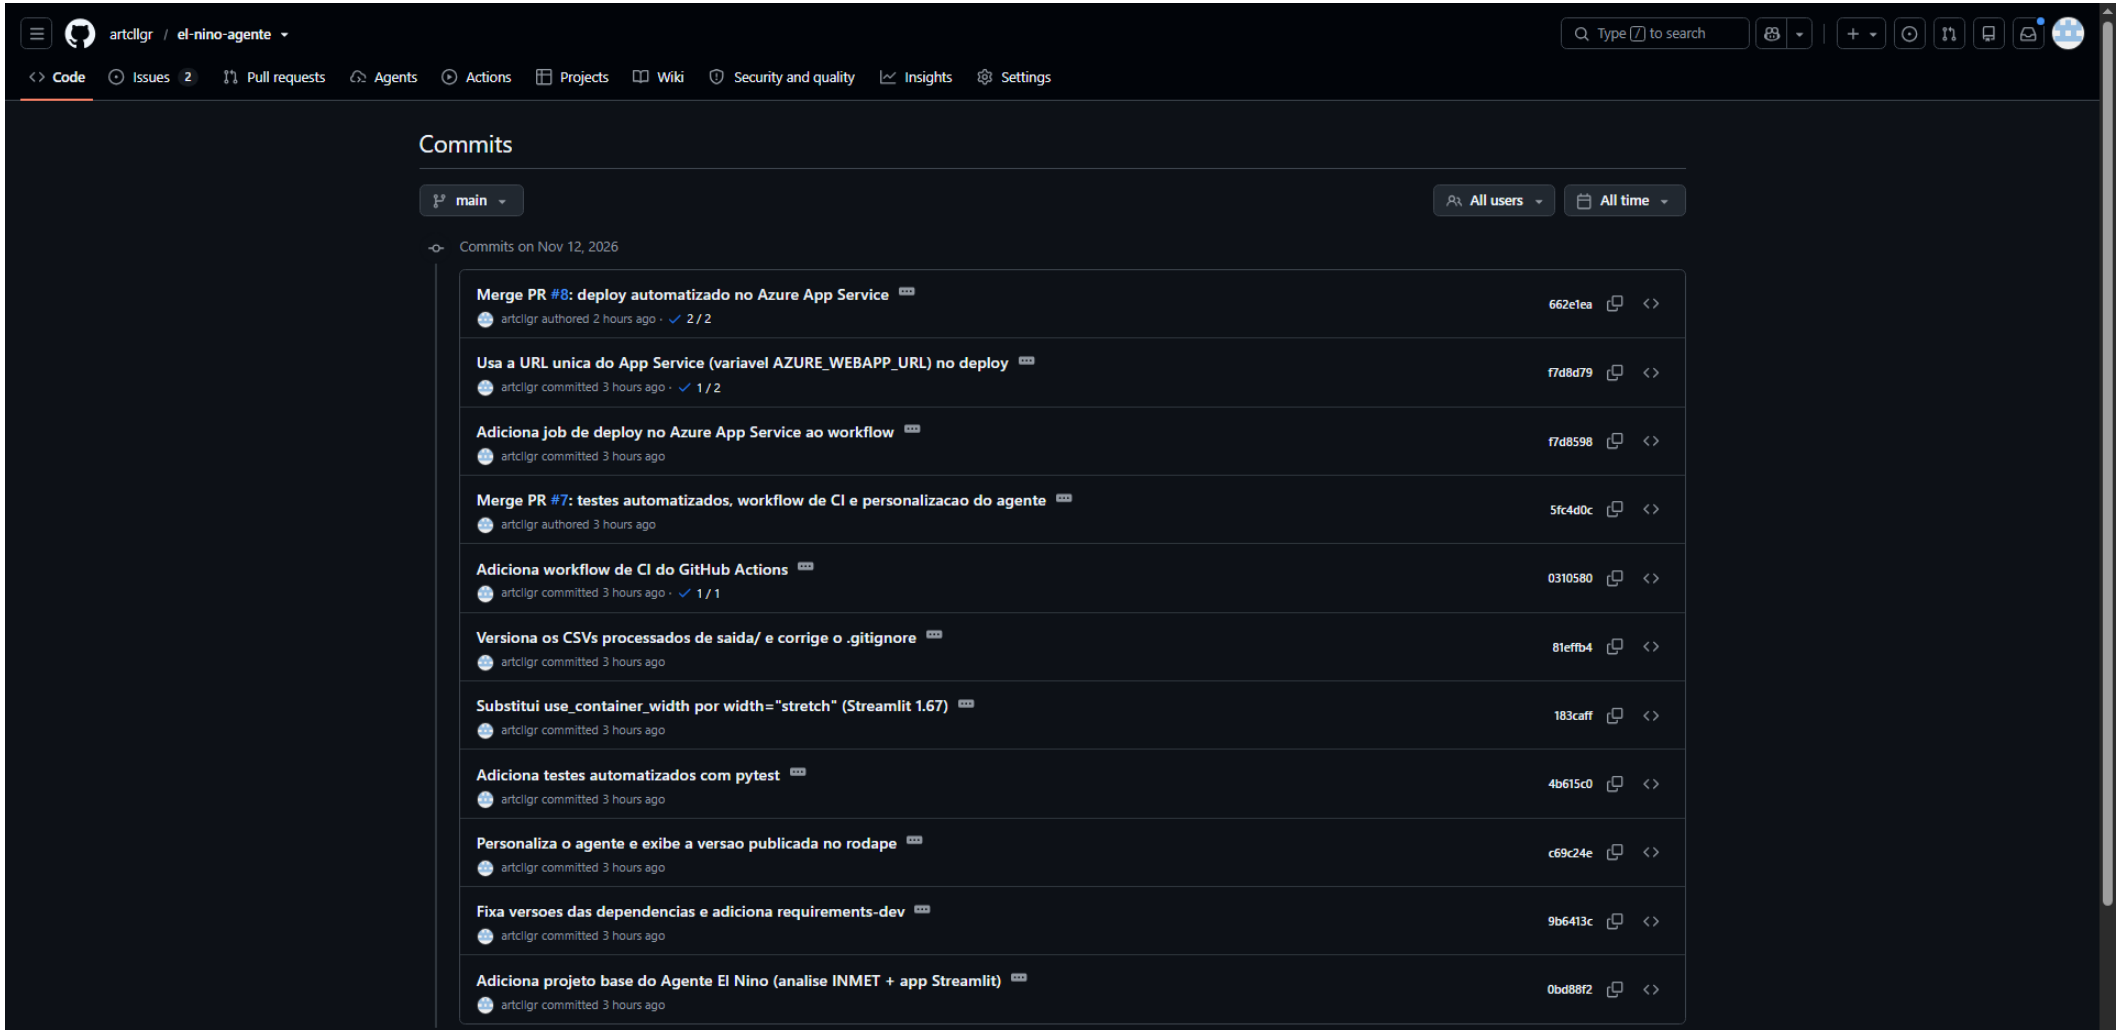

Estrutura do repositório na branch main (3 branches, deploy em producao).

05-repositorio-main.png

2. Repositório, branches, commits e Pull Requests

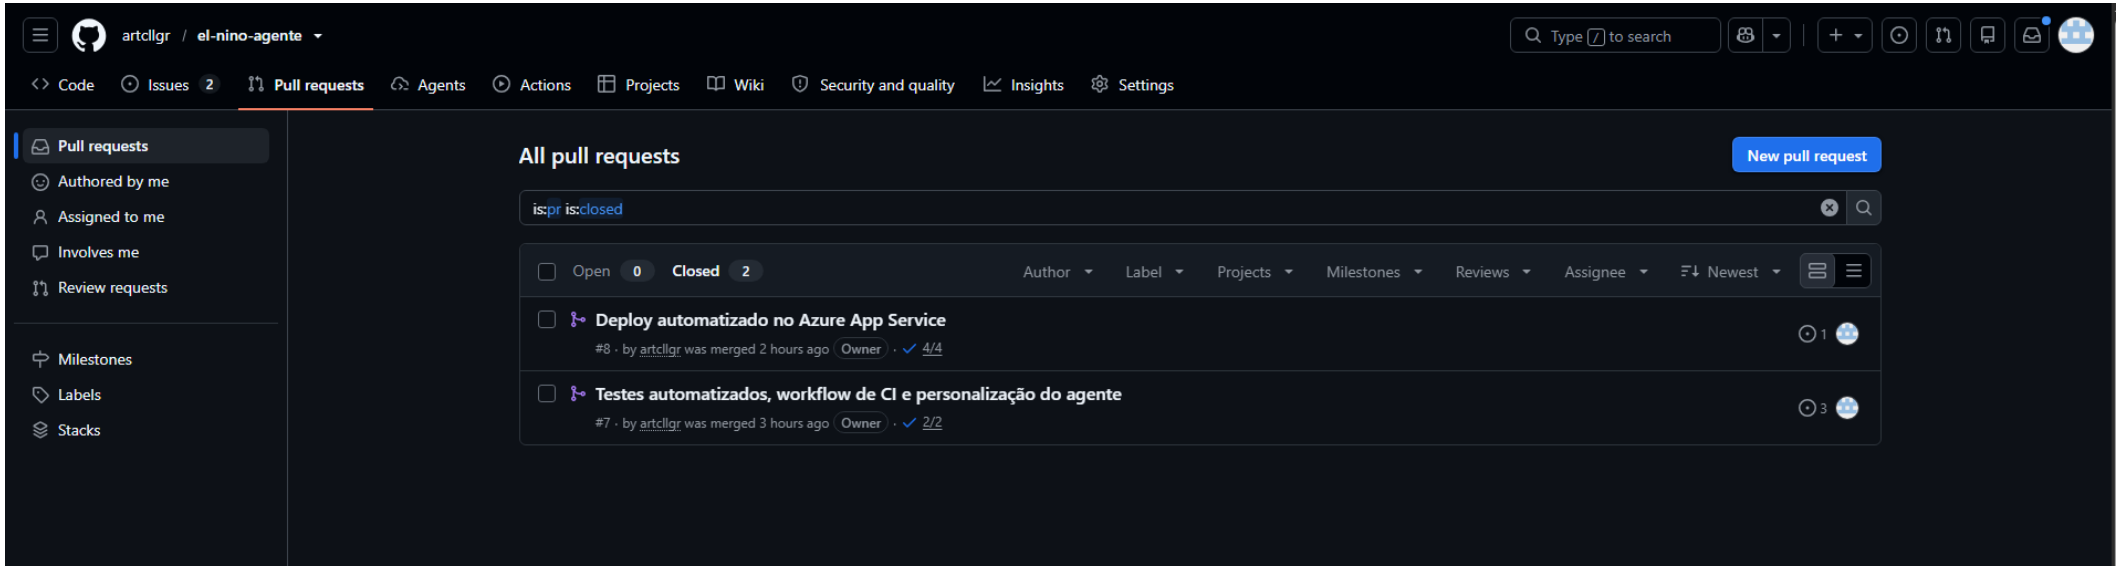

Histórico de commits com mensagens descritivas.

06-commits.png

2. Repositório, branches, commits e Pull Requests

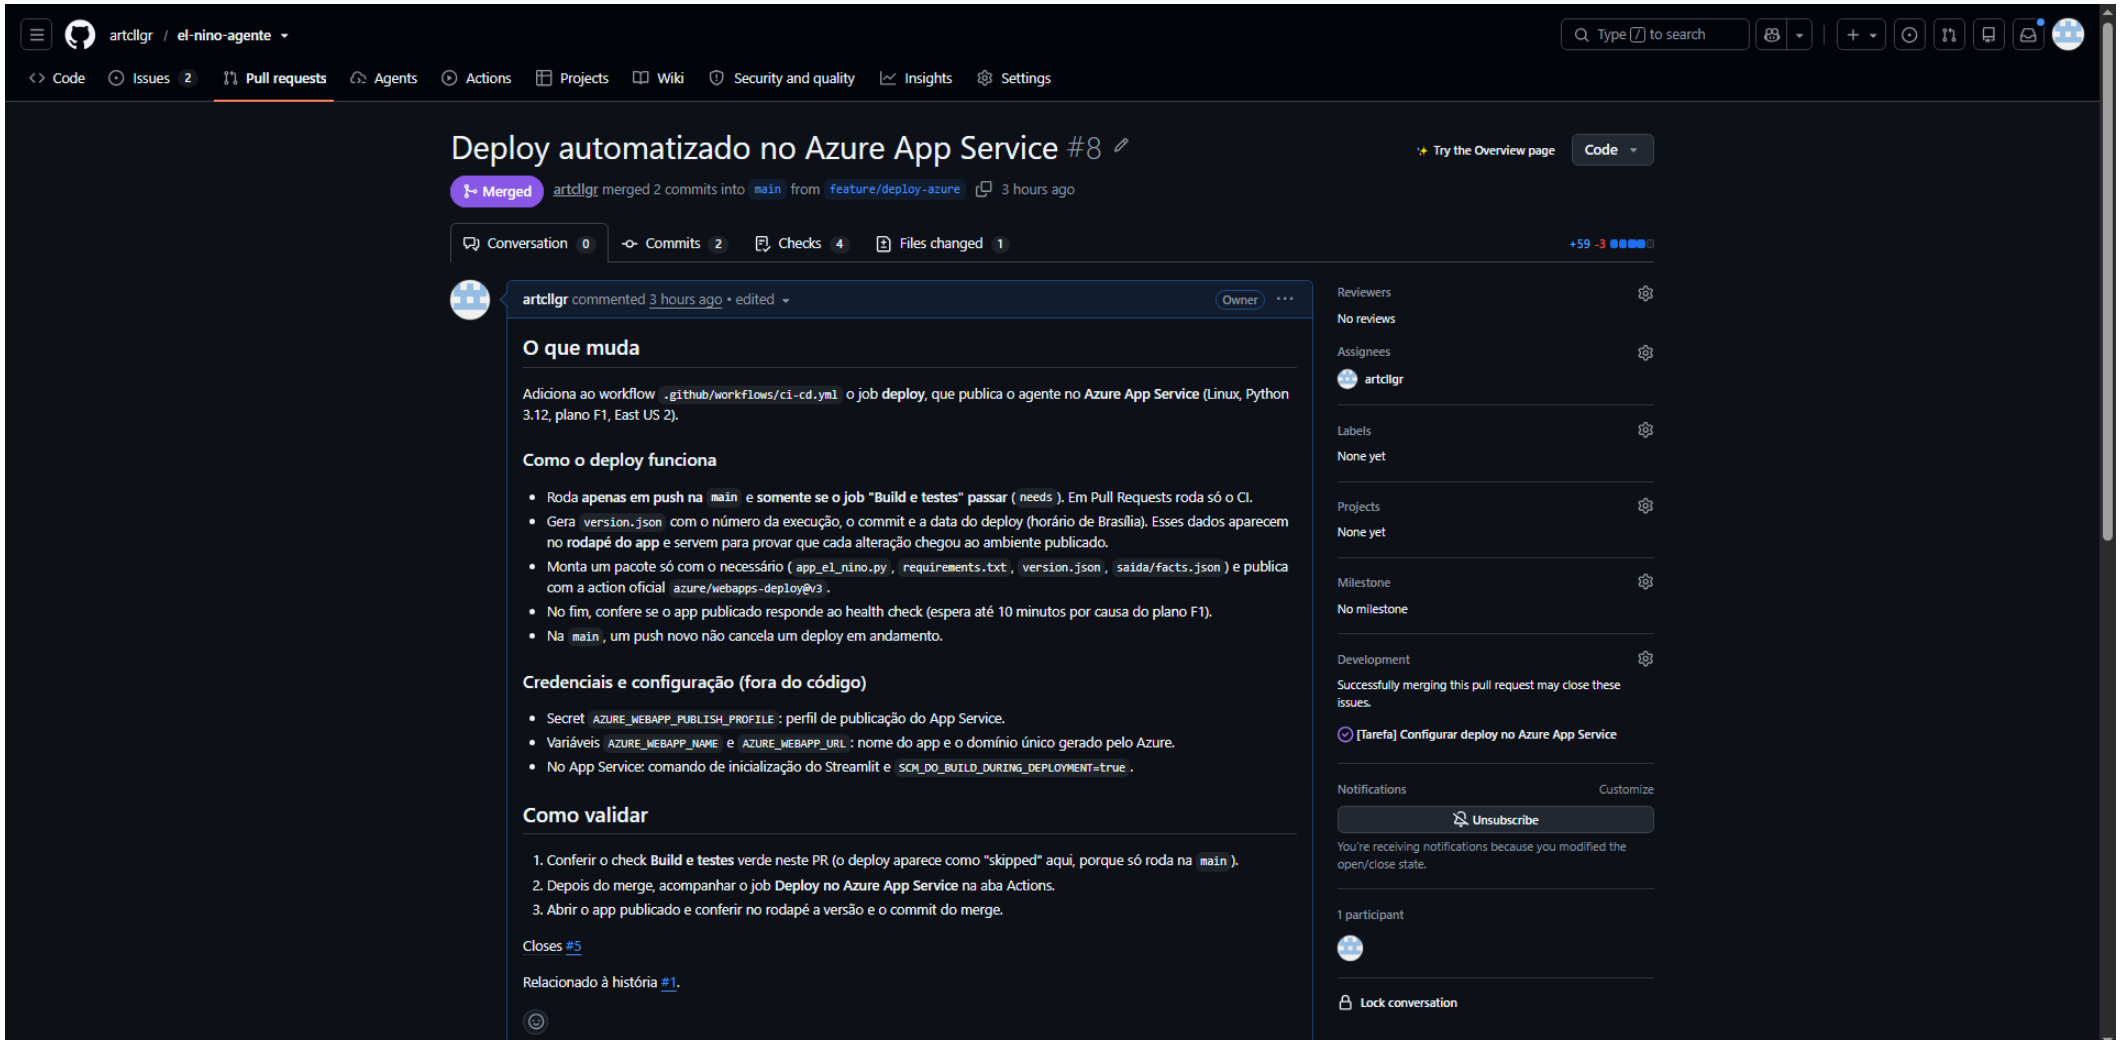

Pull Requests #7 e #8 integrados, com CI aprovado.

07-prs-fechados.png

2. Repositório, branches, commits e Pull Requests

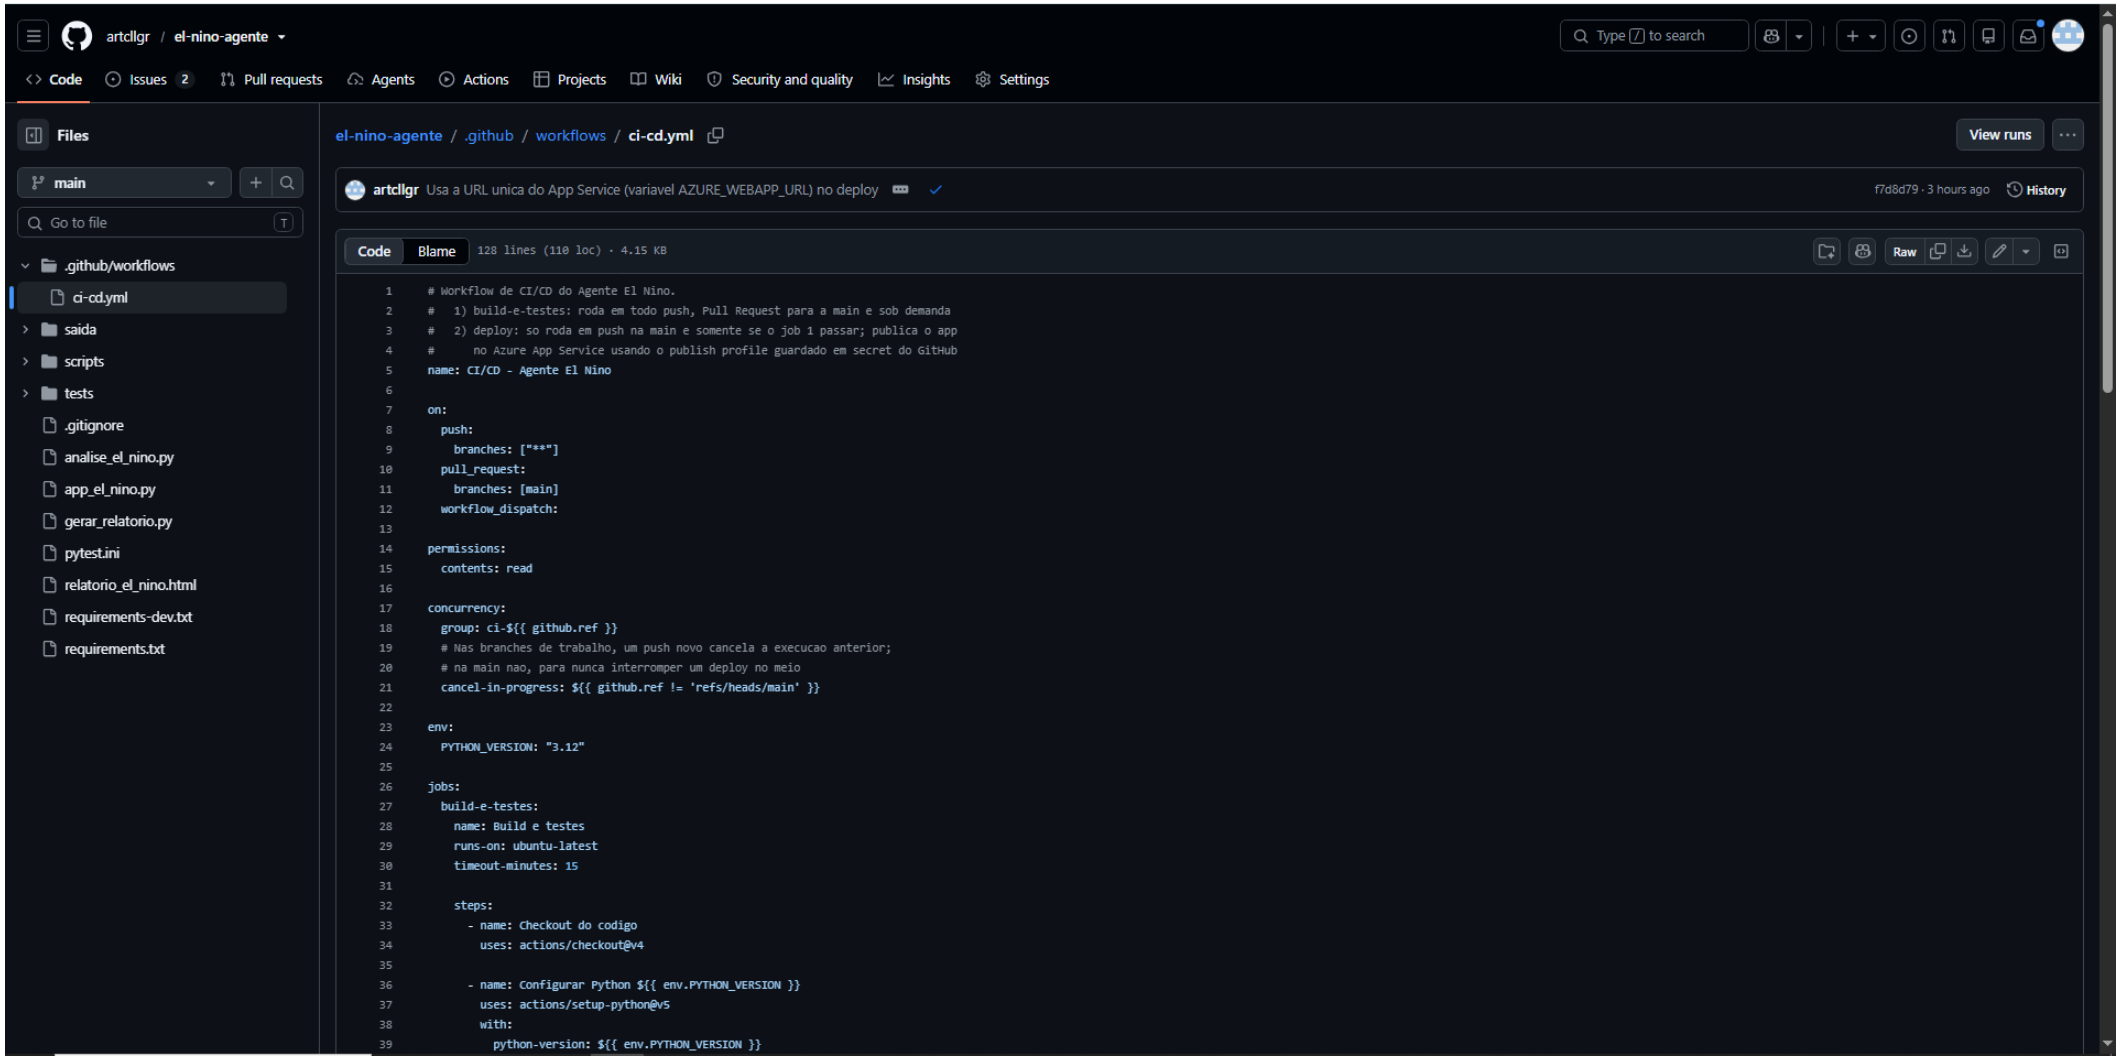

PR #8 integrado de feature/deploy-azure para main.

08-pr-8-merged.png

3. GitHub Actions

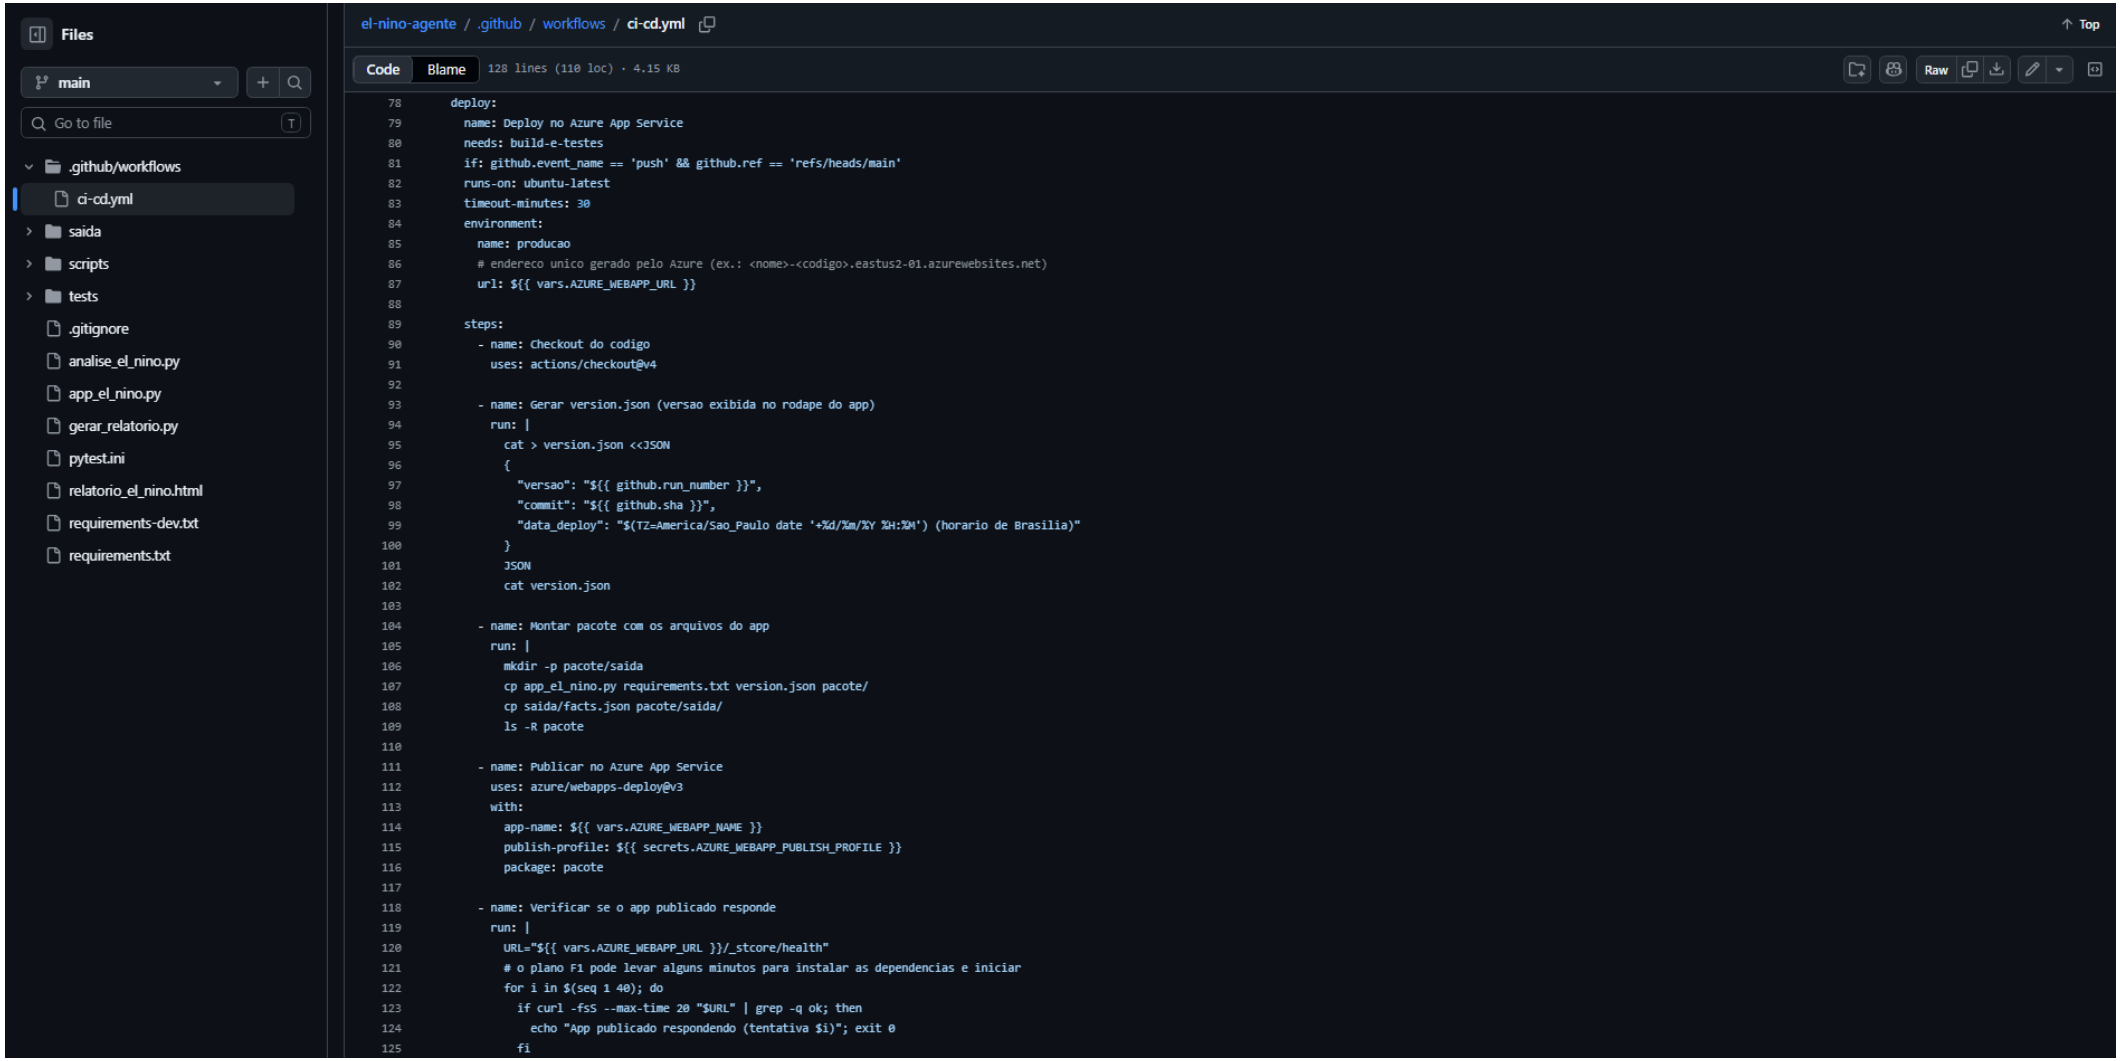

Workflow .github/workflows/ci-cd.yml: gatilhos e job de build e testes.

09a-workflow-gatilhos.png

3. GitHub Actions

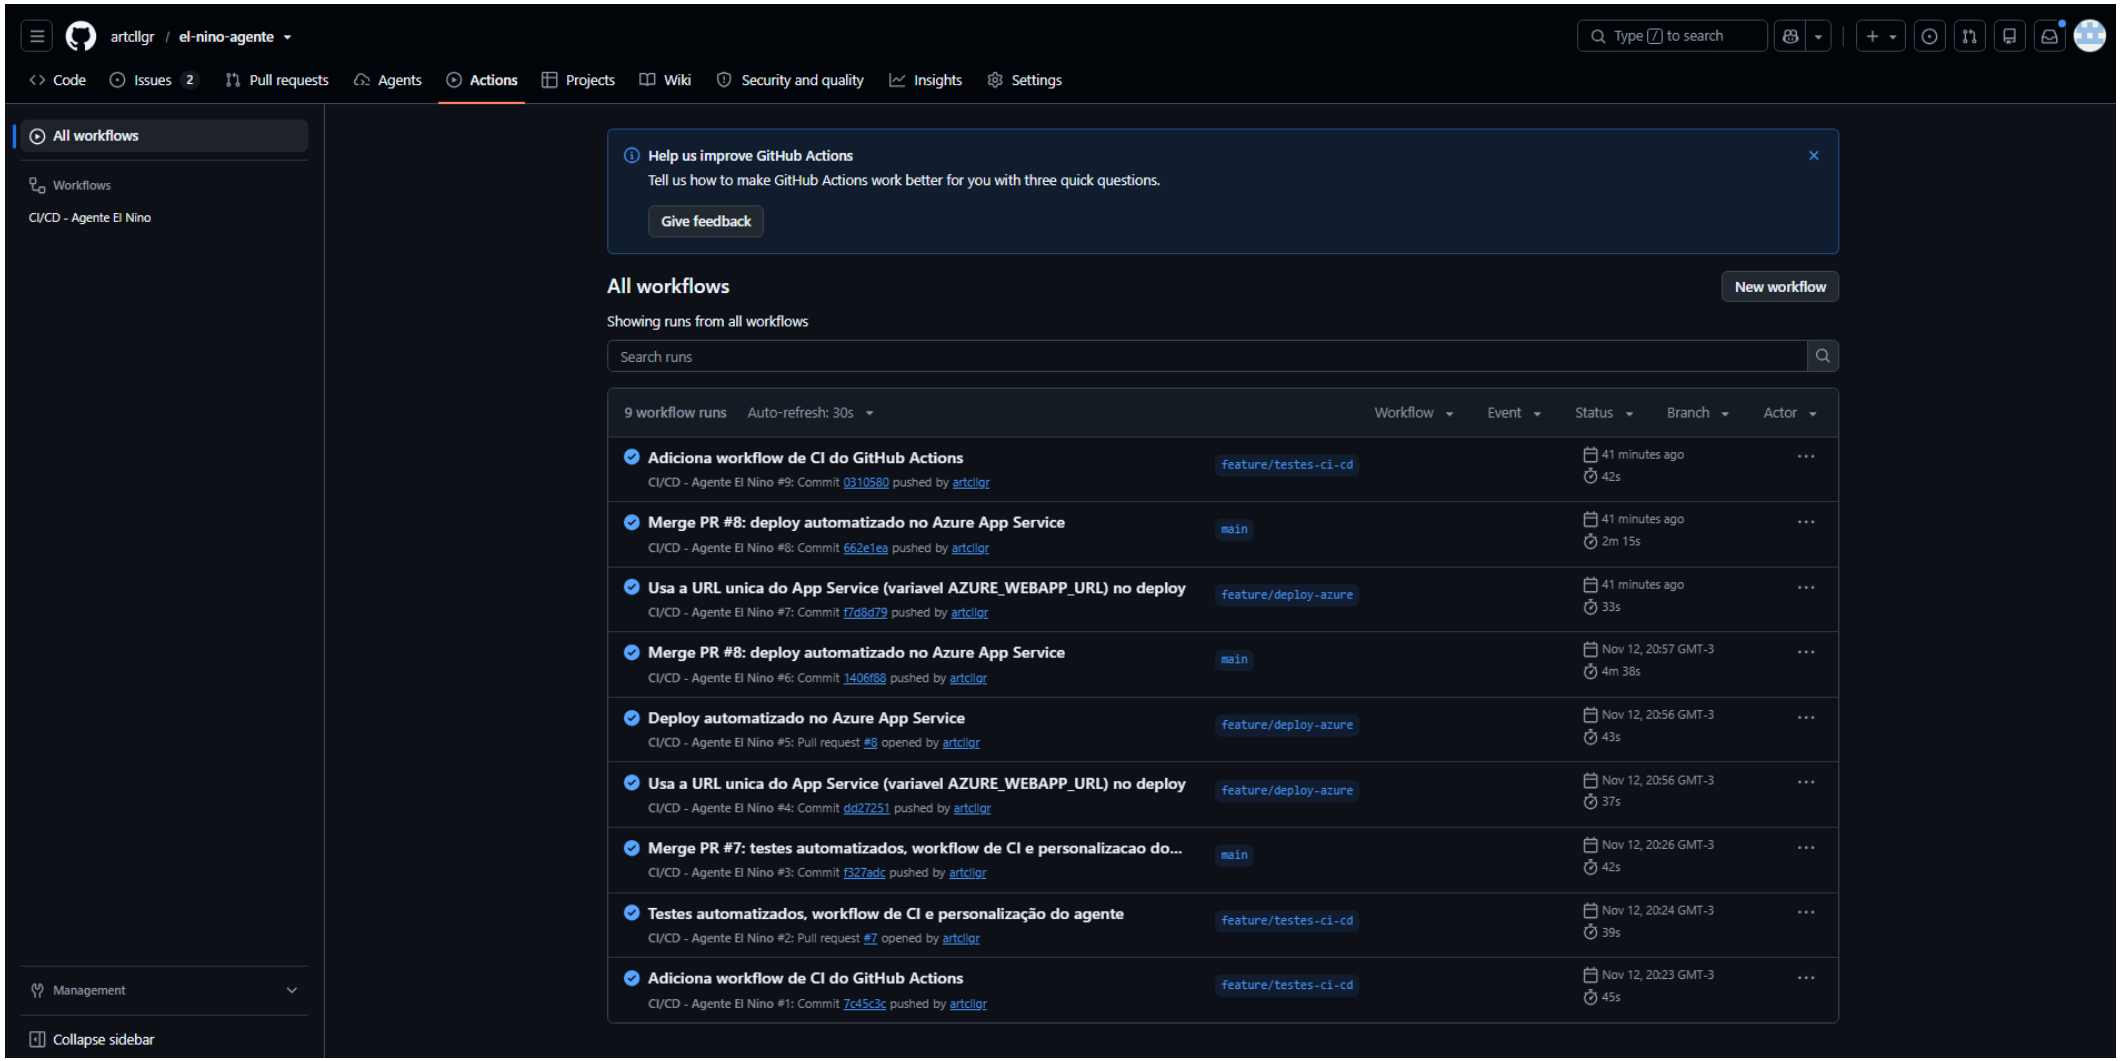

Job de deploy: needs build-e-testes, só na main, credencial em secret.

09b-workflow-deploy.png

3. GitHub Actions

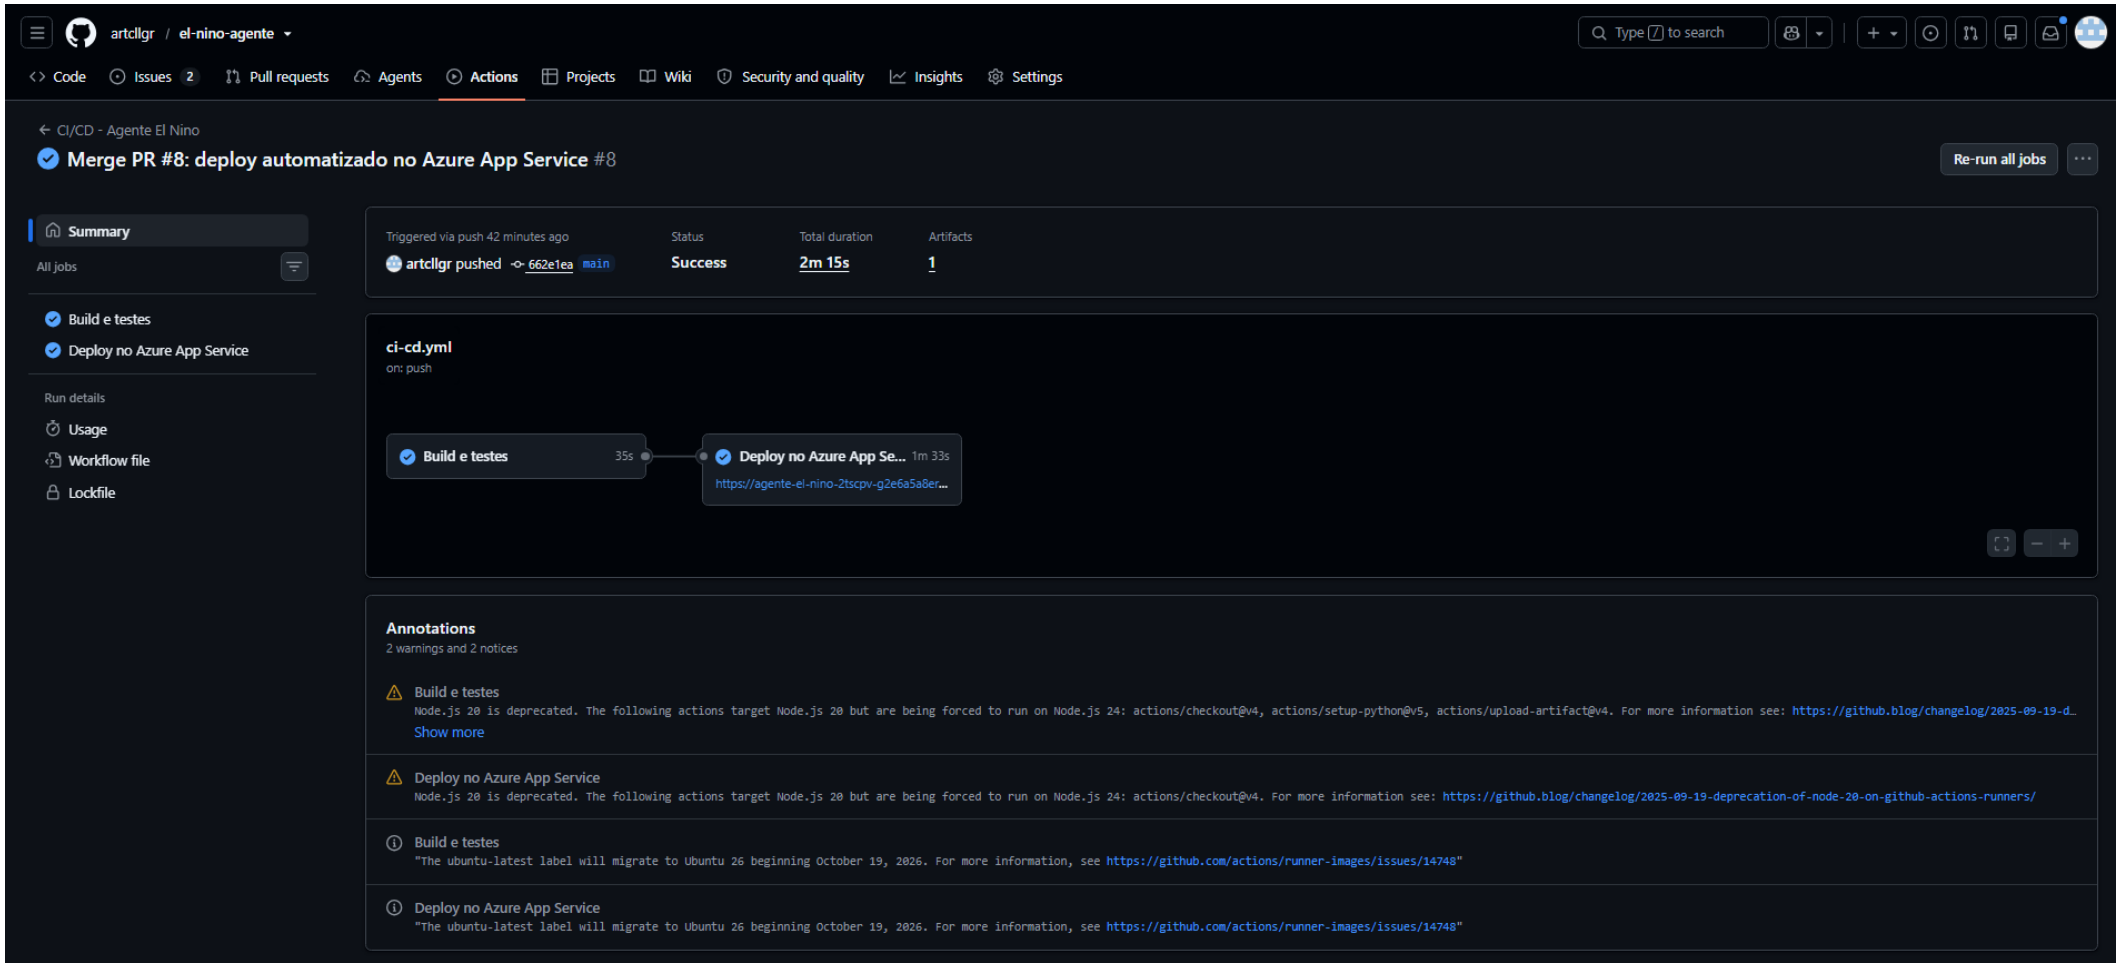

Lista de execuções do workflow, todas com sucesso.

10a-actions-execucoes.png

3. GitHub Actions

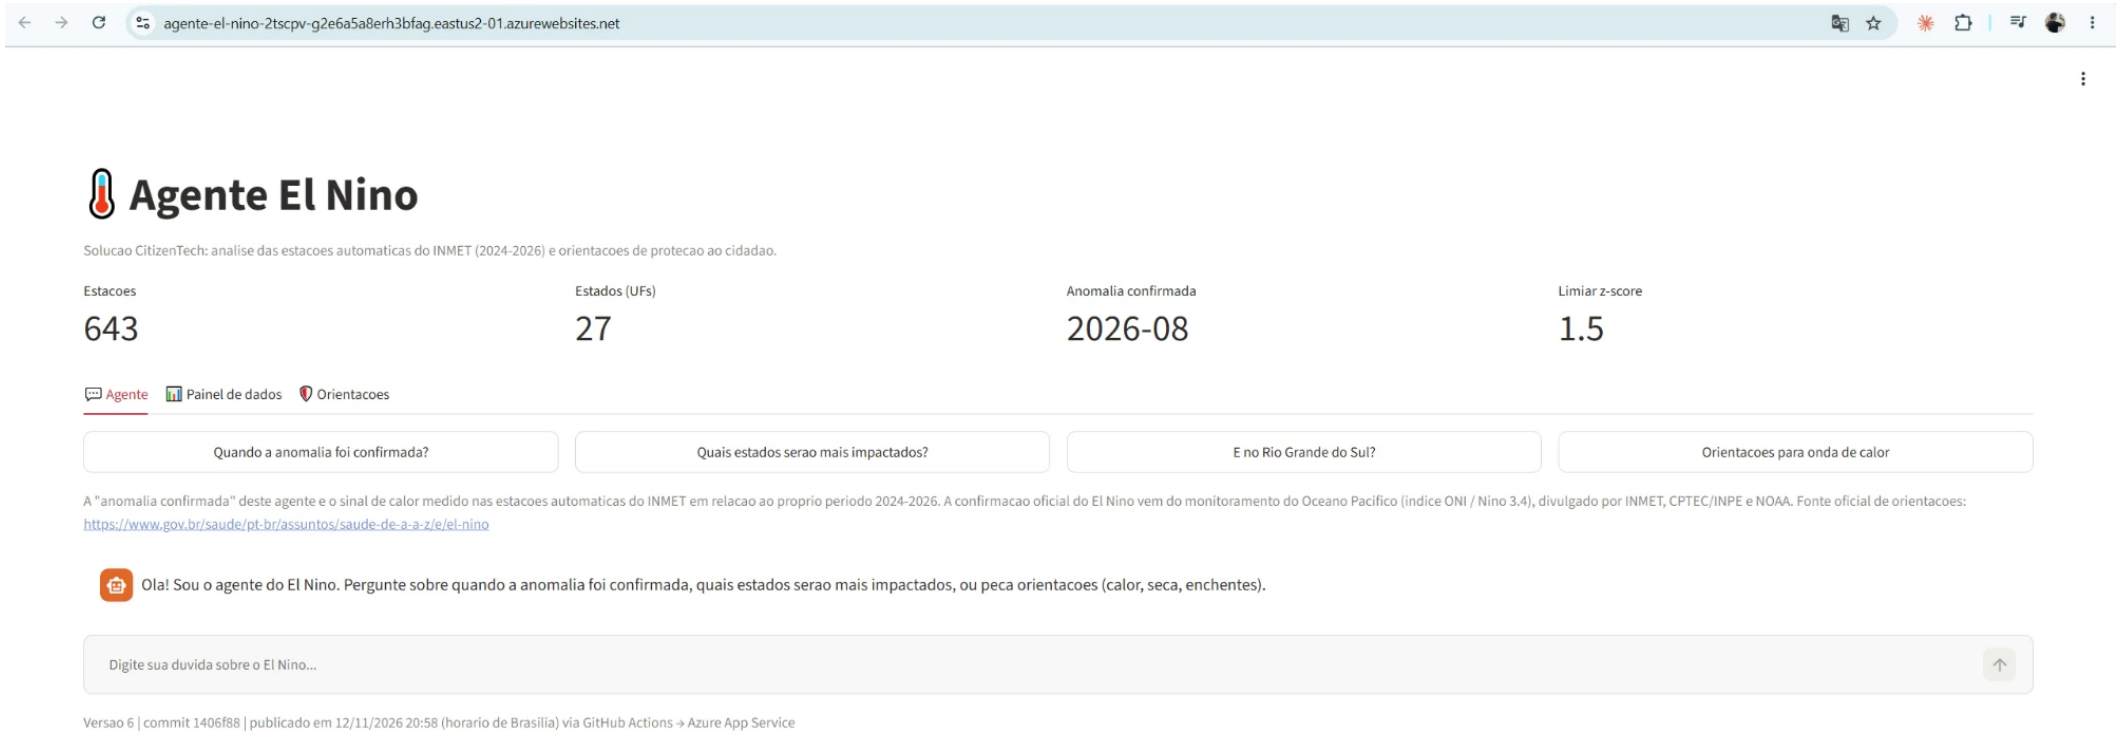

Execução na main: Build e testes, depois Deploy no Azure App Service, com sucesso.

10b-actions-build-e-deploy.png

4. Aplicação publicada no Azure

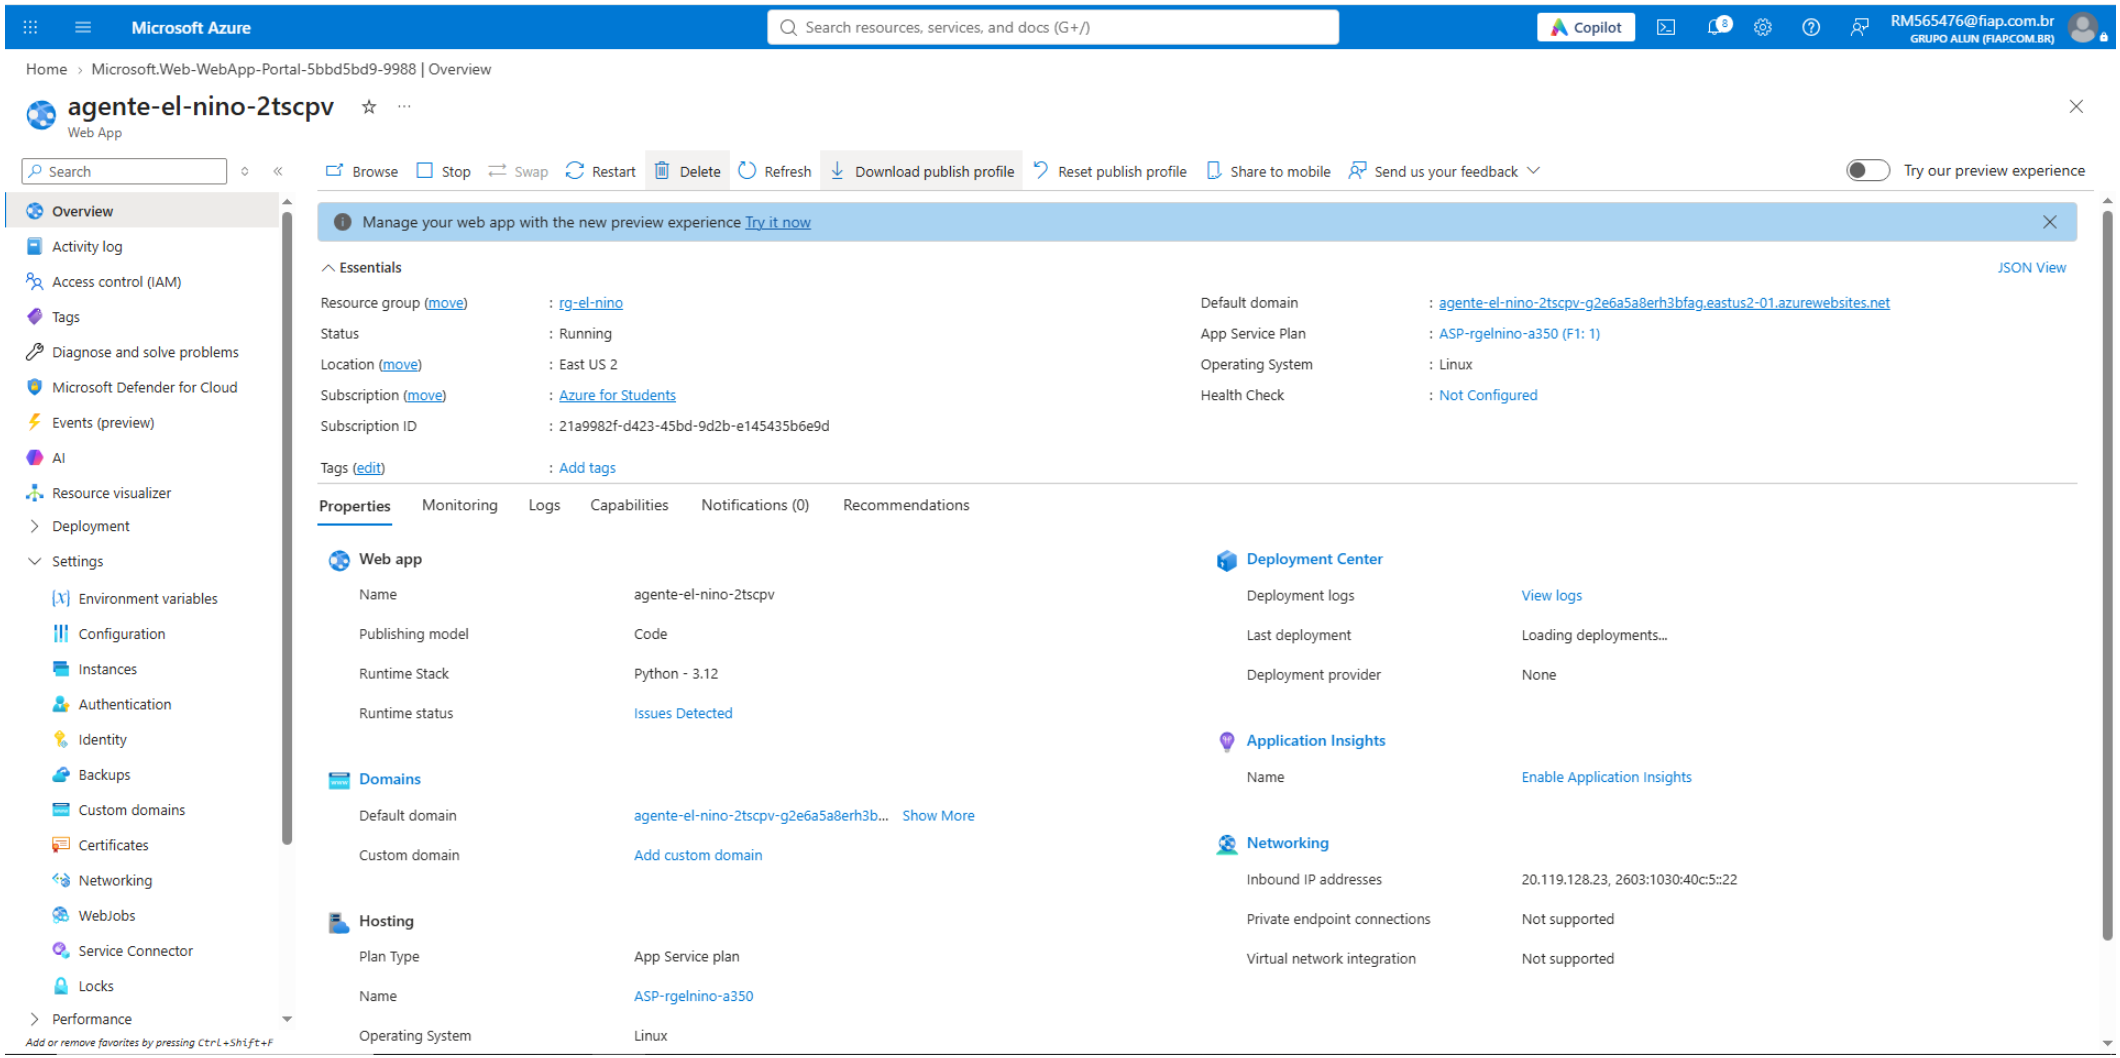

App publicado no Azure após o primeiro deploy automatizado (Versão 6, commit 1406f88).

01-app-publicado-versao-6.webp

4. Aplicação publicada no Azure

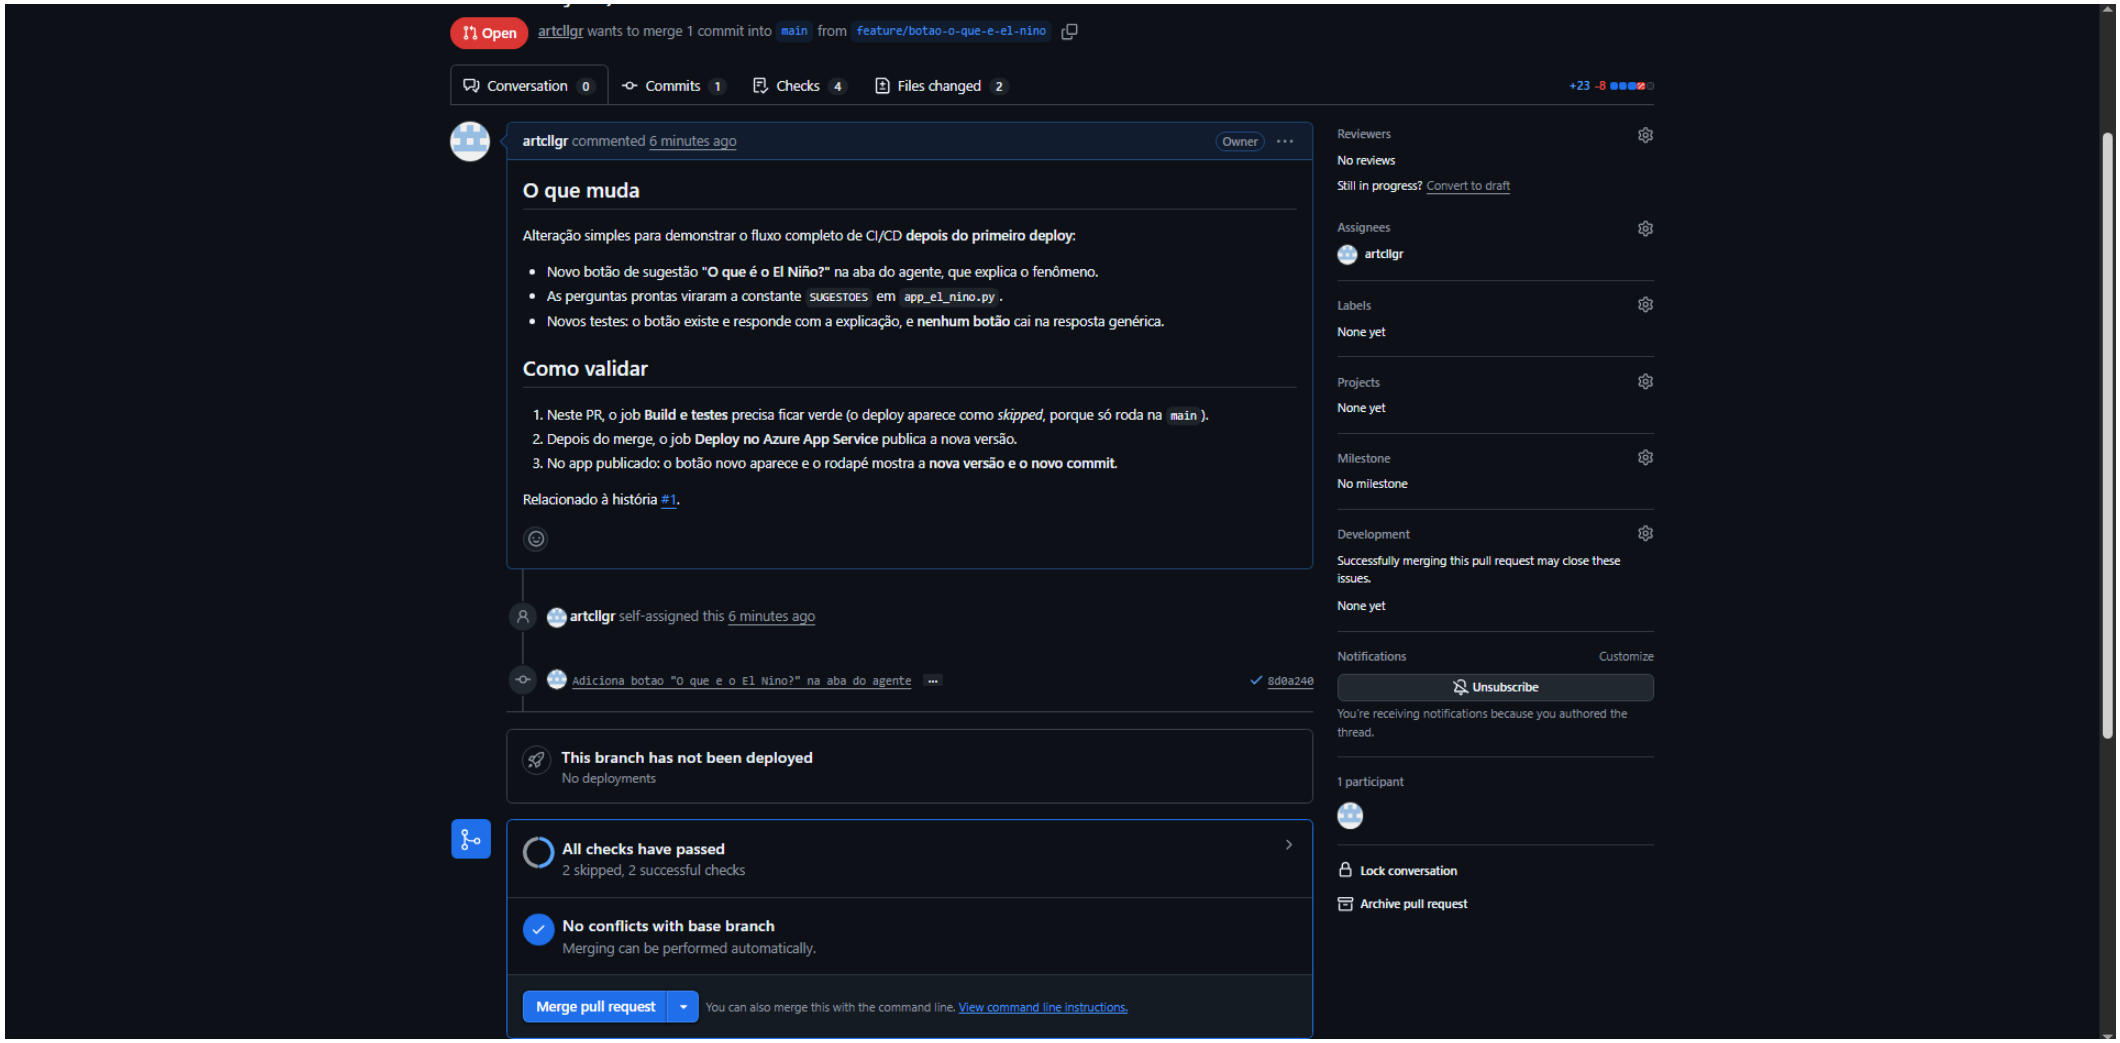

Azure App Service no portal: Running, East US 2, plano F1, Python 3.12, Linux.

11-azure-app-service.png

5. Alteração de código atualizando o ambiente

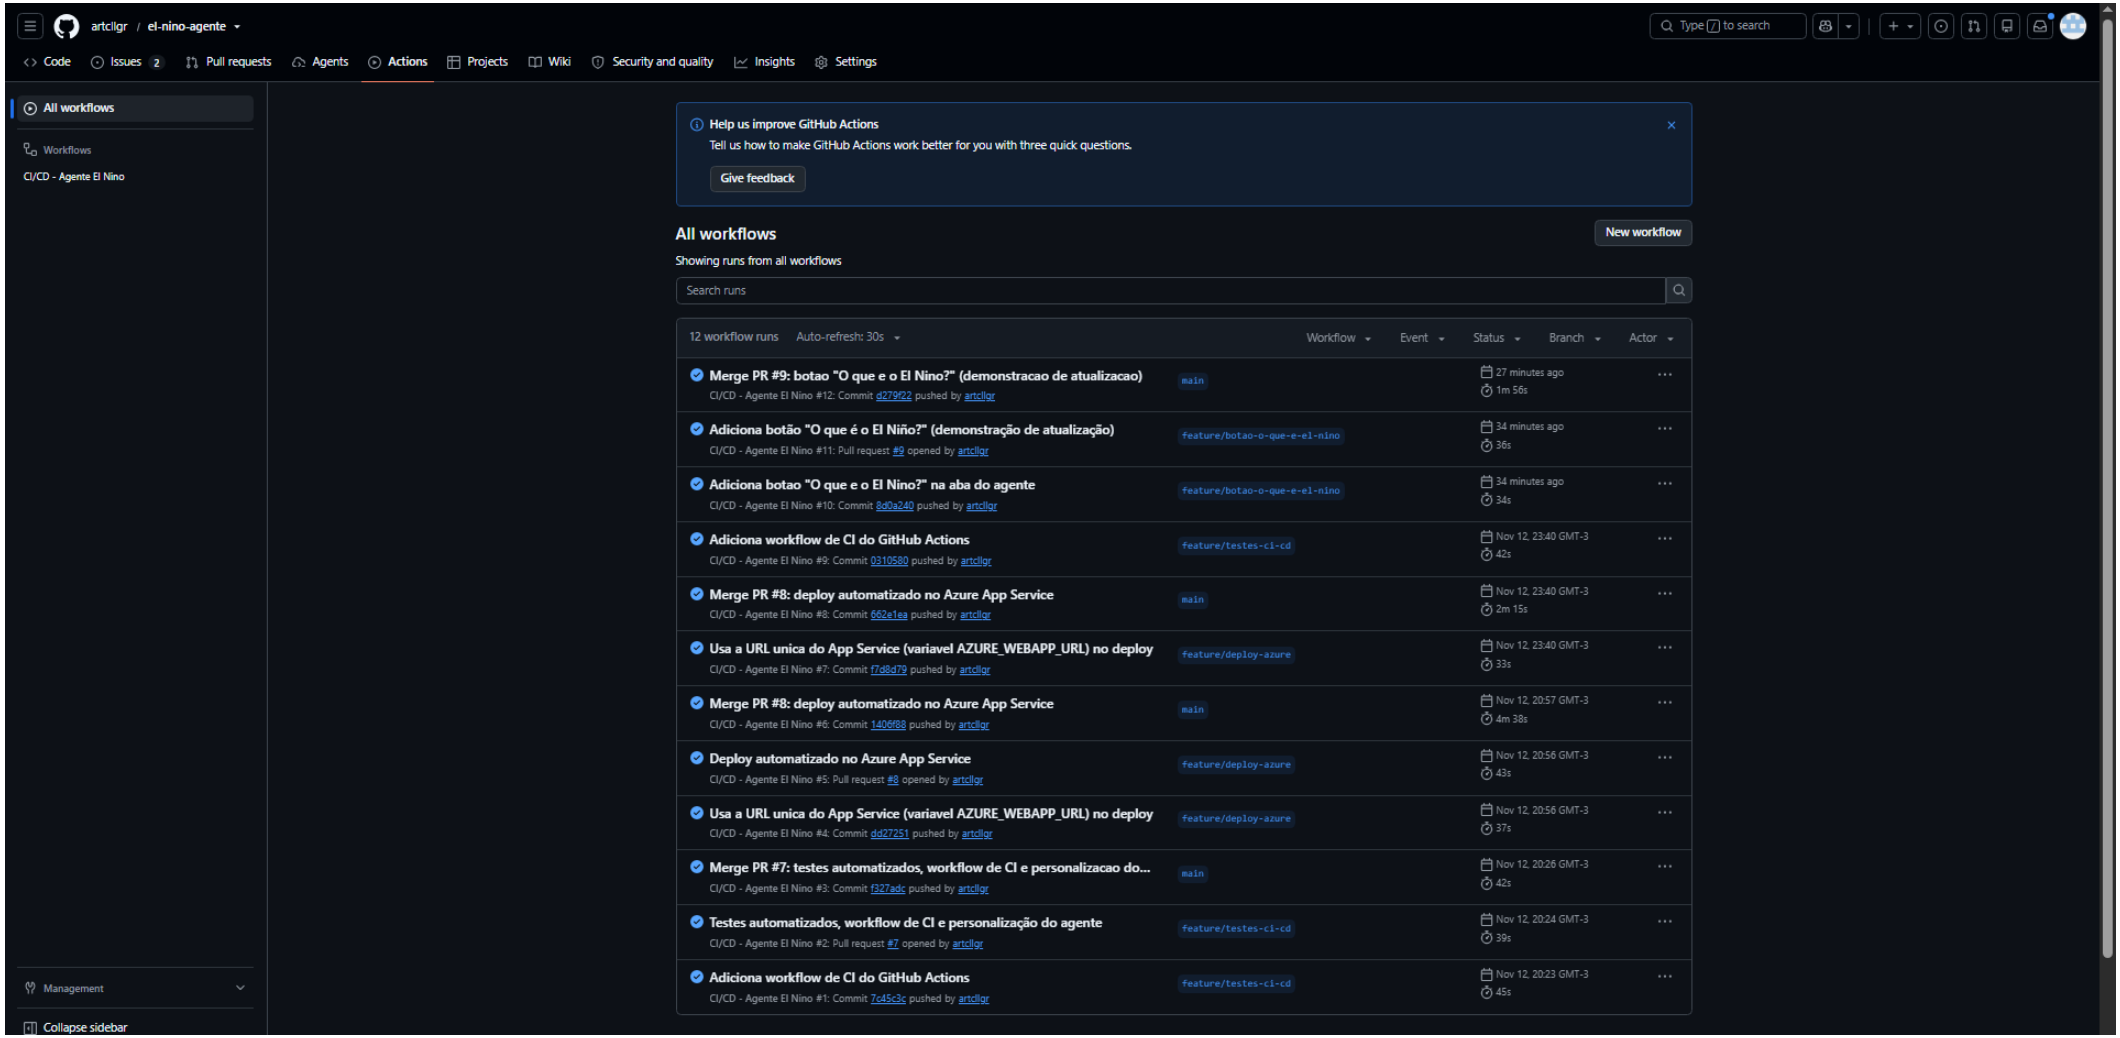

PR #9 (novo botão "O que é o El Niño?"): verificações aprovadas, ainda sem deploy.

12-pr-9-ci-verde.png

5. Alteração de código atualizando o ambiente

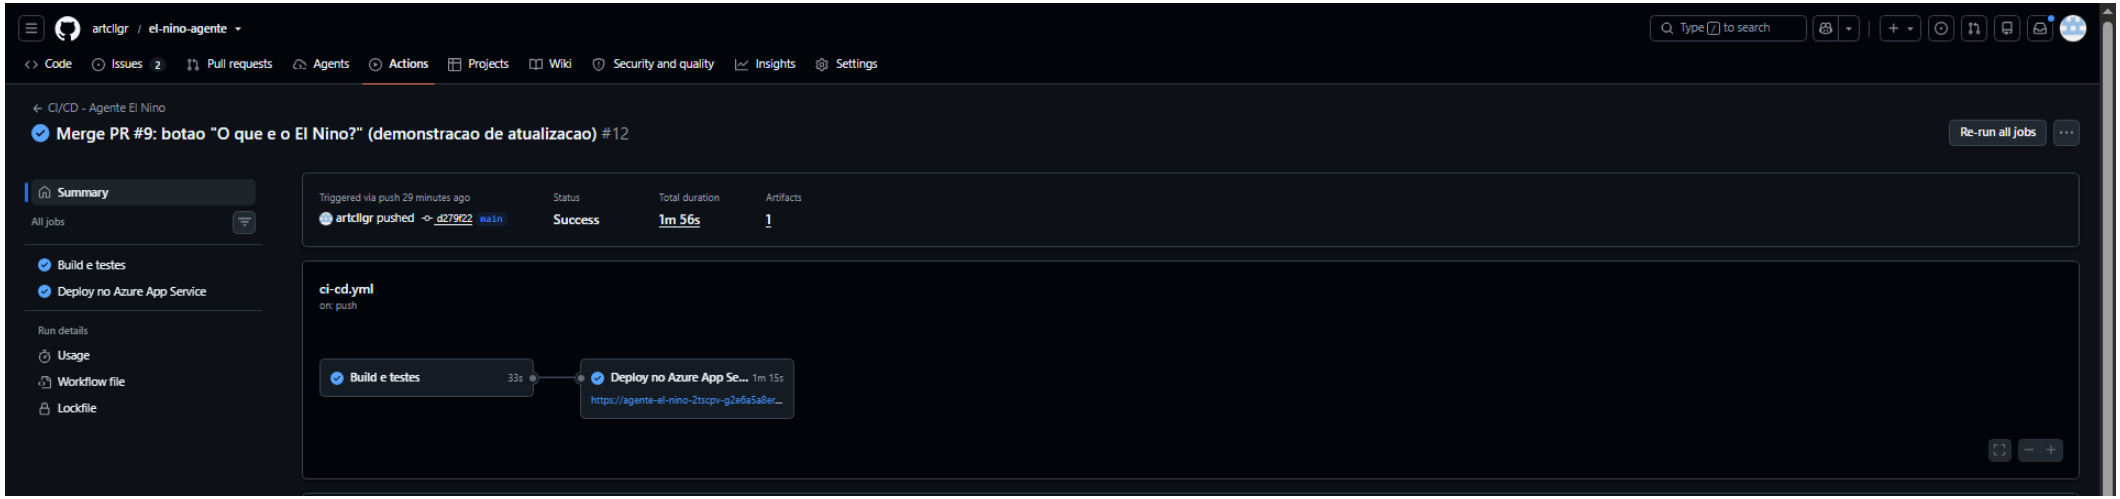

Execuções disparadas pelo PR #9 e pelo merge na main.

13a-actions-execucoes-pr9.png

5. Alteração de código atualizando o ambiente

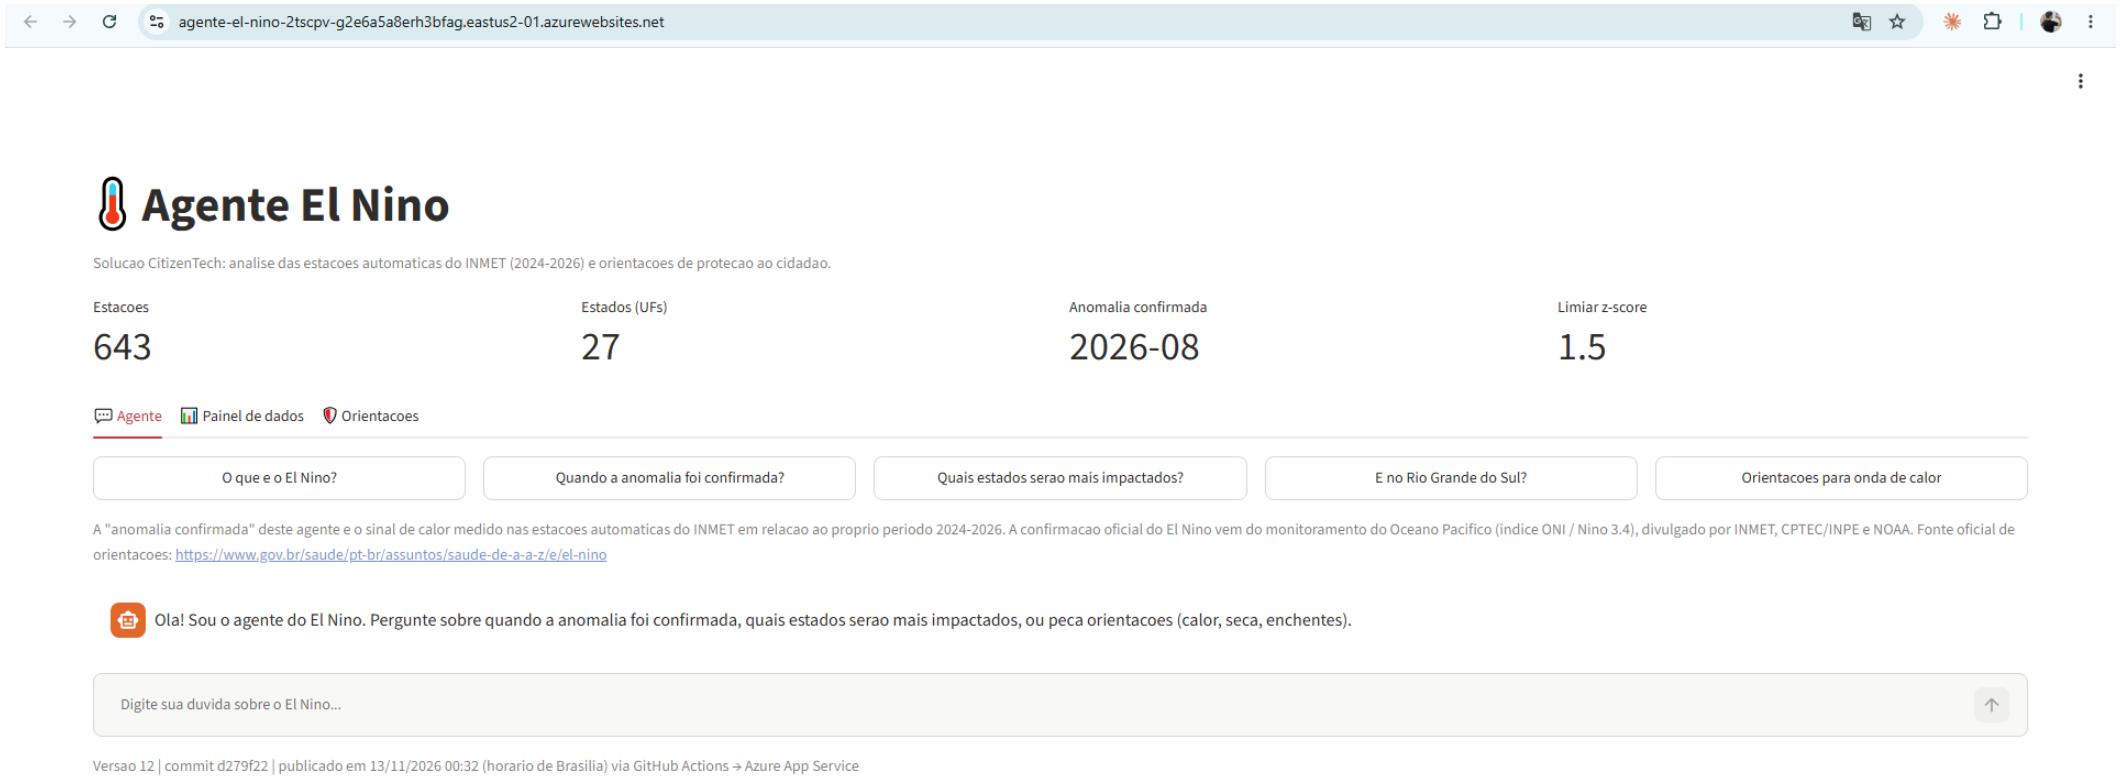

Merge do PR #9 na main: Build e testes, depois Deploy, com sucesso (commit d279f22).

13b-actions-deploy-pr9.png

5. Alteração de código atualizando o ambiente

App atualizado: botão novo e rodapé Versão 12, commit d279f22.
